

ENGLAND ADVISES PERSIA TO AGREE TO SHUSTER EXPULSION

American Backed Firmly By
Teheran Parliament
Against Russia.

(Continued from First Page.)

Persia, W. Morgan Shuster, treasurer-general of Persia, has sent a cable to the New York World, in which he defines the Russian attitude, which is about to embroil the two nations in a war.

Mr. Shuster declares: "Russian consuls have been so long accustomed to intimidating Persian officials of all ranks they are unable to comprehend any one desiring an impartial execution of the laws."

The Persian treasurer-general, an American citizen engaged to reorganize Persia's financial system, also frankly asserts that from the beginning Russia never intended to permit serious financial reforms or a strong Persia. The throwing off of the mask, says Mr. Shuster, was hastened by the European situation and "the insincere English foreign policy here."

Mr. Shuster challenges either Russia or England to show a single act he has committed that is opposed to legitimate foreign interests, or a single statement made by him (Mr. Shuster) that is untrue.

England, says Mr. Shuster, has been guilty of "sanctimonious acquiescence" in Russia's fight upon every single effort looking toward the reform of Persian finances. Russia has waged this fight, he says, upon one pretext or another, although Mr. Shuster states he believes his official acts have been entirely satisfactory to the government and to the people of Persia itself.

"I have no apologies to offer for my course," concludes Mr. Shuster, who says that he was early offered "a plain choice between serving the Persian people and only appearing to do so, while actually serving foreign interests bent on Persia's national destruction."

WILLITS TO DIRECT NAVY YARDS; THEISS WILL BE ASSISTANT

Shop Management, Akin to
Taylor System, May
Be Installed.

Secretary of the Navy Meyer today announced that Rear Admiral A. B. Willits has been appointed to the new position of director of navy yards, and that Capt. E. Theiss will be his assistant.

These officers recently went to Borrow-Park, England, to investigate the new system of shop management in that yard and their report undoubtedly will be made the basis of the department's navy yard policies in the future.

The opinion is strong at the Navy Department that the promotion of Admiral Willits to the new position means that a system of shop management akin to the Taylor system will be installed gradually in the yards.

Killed By Automobile, Result of Accident

Unavoidable accident was the verdict of the coroner's jury at the inquest today over the body of ten-year-old Carl Leonard, of 1629 Sixth street northwest, who was run down and killed yesterday by an automobile driven by Julian P. Dodge, a grocer, at 1510 First street northwest.

Carl, with companions, was playing on the opposite side of the street, when his mother, Mrs. Sophia Leonard, called him. As the boy started across the street he ran in front of Mr. Dodge's automobile. The car knocked him down, his head striking the pavement. His skull was fractured. He died two hours later without regaining consciousness.

You don't need to be a judge of Clothing—you know US

You know you can rely upon our judgment—and better on ours than anyone else's, because our judgment is founded upon absolute knowledge of Saks Clothing—a maker's knowledge; not merely a buyer's knowledge.

Applied to Overcoats—it insures an integrity of quality in ours—as well as a distinctiveness of character. You'll find a Saks Overcoat embodies those features that exactly satisfy. You would find them difficult to describe perhaps—but they are very essential. Really it isn't any one thing—but the garment as a whole—fabric, fit, the manner of finish and detail of making, the modeling. And price doesn't signify their absence or presence. Saks prices are no different from others' prices. But there's a very decided difference in Saks Overcoats.

We couldn't begin to serve you in the superior way we do—if it was not for our facilities for making. This excellence demands big preparation from us. Think of the variety of tastes to be served, and of sizes to be fitted. That's why our Overcoat line must be 130 styles strong—that we may have what YOU want—and we've got it.

To say "Raglan Shoulder" tells nothing of the graceful draping it gives our garments. Everybody sells Convertible Collar Coats—but they haven't the accurate model our tailors have perfected. So with the Belted Back Coats, and the Single and Double Breasted Effects—and the selection of Fancy Weaves—as well as the staple models and plain colors. Because we can make these garments we can insure you satisfaction that is truly exceptional.

\$15.00 to \$50.00

We'll be glad to have you give special consideration to the grade at \$20 we have—and they are remarkable values at that price. More than a score of styles to select from—Plain Models in Plain Colors; and Raglan and Convertible Collar Coats—Single and Double Breasted. They look \$5 better than...

Cut in the latest model; perfect fitting. These are the coats with the linen finish that are so nifty and satisfactory.

Special, \$5.00

Tomorrow ought to be Big Saturday in the Boys' Shop —with these values offering

Every one of these items has two things to commend it to your consideration—quality and price. The qualities are of our usual high standard, but the prices are considerably below the actual values—lower than conditions have made it possible to quote before—and as they touch vital needs of the juvenile wardrobe, you're sure to be interested.
